

The Doctor's Advice

By Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given, and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Elwood streets, Dayton, Ohio, enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious names will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Answer: Thin, scrawny, bloodless people need assistance in absorbing nutrition from the food eaten, and for this purpose I always prescribe three-grain hypo-nuclease tablets, a most effective preparation if regularly and persistently used, as it seems to increase the red and white corpuscles of the blood, thus affording health, strength and increased weight.

Geo. V. G. writes: "Perhaps you can prescribe for me. I am a man of 35 years of age, and I am a loss to my family. For the past year have suffered extreme nervousness, trembling and extremities cold. Have no appetite, am weak, listless and no ambition to work or seek recreation. Am tired all the time and in no sense the strong capable man I was a few years ago."

Answer: A powerful rejuvenating nerve medicine should revive the dormant sluggish condition and put new ambition and energy into your blood and nerves. Obtain three grain cadomene tablets in sealed tubes, take as per directions.

NOTE: For many years Dr. Baker has been giving free advice and prescriptions to millions of people through the press columns, and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands of letters are written him, praising his wisdom, skill and confidence, similar to the following:

Dr. Lewis Baker, Dear Sir:—I happened a few days ago to read The Pittsburgh Leader and there I noticed your column of questions and answers. I also noticed that you advised those that are suffering from constipation to use Sulphur tablets, and have tried. To my amazement it has made a new man out of me. I have been suffering from constipation for the last 5 years and have tried various remedies without avail. I am so grateful to you that I don't know how to thank you for it. Would be very glad to recommend it to anybody. Very truly yours, D. R. SPERBER, 321 Weaver St., Pittsburgh, Pa.

INVITATION SENT OUT FOR FOURTH OF JULY CELEBRATION

The monster patriotic parade and celebration of July 4, which will have a large representation of soldiers, enlisted men, and registered boys, is not to end there, but is to be open to the public at large to participate in.

The committee of preparation and safety, which has charge of the arrangements for the day, reported yesterday that the preparations are nearly perfected and that one of the biggest parades of its kind ever given in the state, is to be seen.

The following invitation to all Weber club to participate was issued last evening:

"From the bottom of her heart Ogden reaches out to her country cousins of Weber county a soulful invitation to come into our city and be our guests on the Fourth of July, and make that immortal day one long to be remembered."

"Quietly Ogden set about preparing for the occasion and did not want to advertise the affair till the foundation was well laid. But now matters are auspicious, everything is ready for an old-fashioned Independence Day celebration, and the battle is on."

"Further along the program will be published, but the young fellows and their sweet girls must be ready to parade our streets and show the molliciousness of the stuff out of which our country cousins are made."

"The climax will be held in Lester park, maybe, but the crowning splendor will be our streets crowded with the gay colors of Weber's fair maidens, their husky beaus with faces of tan, splendid badges of honor, and over all the shimmering folds of Old Glory that never sought a fight and never lowered an arm. By order of the committee. (Signed) Joseph Chee, Chairman."

WEAR THOSE SHOES THAT TORTURED YOU

Cincinnati authority tells how to dry up a corn so it lifts out.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on the tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of freezeone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.—Advertisement.

GERRIT FORT, JR., MUST PAY \$560

In his suit for damages against Gerrit Fort, Jr., et al., A. S. Berrett was awarded damages to the amount of \$560. The trial was held in Judge Agge's court yesterday. The jury returned the verdict at 9 o'clock last night, awarding the plaintiff but \$560 of the \$5,000 asked.

Judge Agge denied the motion for non-suit made by Attorney Hollingsworth, counsel for Fort, on the ground that he was not convinced that when one drives from a dry town to a wet town and then back at reckless speed, he is not liable before the law.

After instructions to this effect the jury was out for several hours. The amount of the damages will be split among the three occupants of the car, as the court ruled that one was equally as much to blame as the other. Attorney George Halvorson was the counsel for Berrett.

STRIKE SETTLED BY A CONCESSION

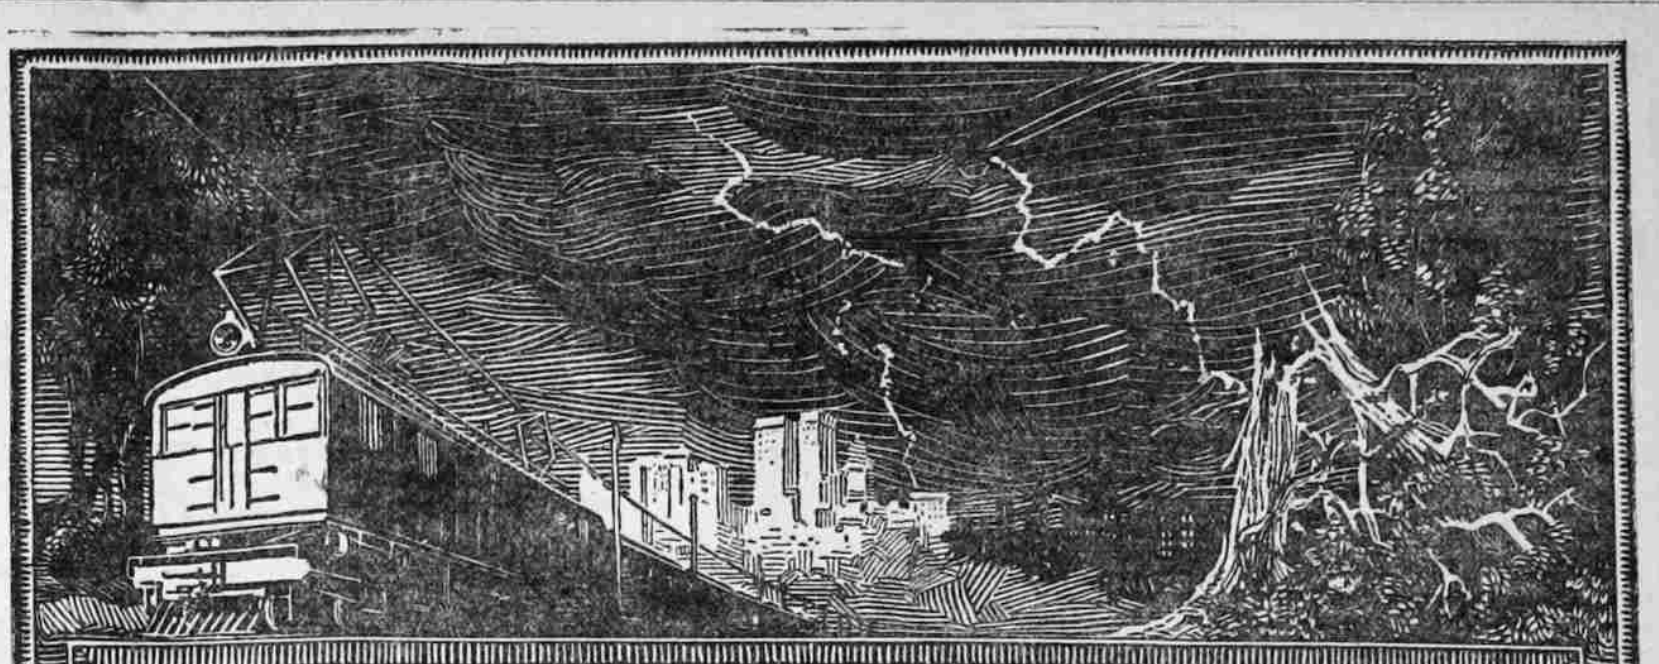

The disagreement between the steamfitters of Ogden and the employers has been adjusted. The employers have agreed to grant the increase demanded, and the men returned to work this morning. The settlement was reached after several days of negotiation.

DIXON'S selected **Dixamotor** graphite is the only form of graphite fit for auto lubrication. It won't ball-up or squeeze out under pressure. Try it.

DIXON'S **GRAPHITE** **Automobile** **LUBRICANTS**

Eliminate friction and wear. Your dealer has a Lubricating Chart that tells just what **Dixon's Graphite** lubricant to use in every part of the car. He'll give you one on request.

Electricity—the Friend of Man, and Also the Foe of Man

WHEN harnessed up by science it is one of Nature's most valuable gifts. When it is not under control, it often spells ruin. There are few things wholly evil or wholly good. We all know dyspepsia arises from immoderate eating, but it is also unhealthful to eat too little. Over-indulgence in anything is bad. Because of this we were given the heaven-born power of reasoning, in the not-too-much of anything.

Our sovereign brew **BUDWEISER** has for sixty years been a beverage of sane moderation. It has untold numbers of friends in every civilized land because of its Purity, Quality, Mildness and exclusive **Saazer Hop Flavor**. **BUDWEISER** sales exceed other beers by millions of bottles.

MORE PRISONERS ARE PLACED IN CAMP AT FT. DOUGLAS

SALT LAKE, June 21.—The second detachment of prisoners of war and alien enemies arrived in Salt Lake yesterday from San Francisco and were placed in the prison camp at Fort Douglas yesterday afternoon. They comprised Lieutenant Henry Bock of the S. M. S. Cormoran and six sailors of the same ship. The alien enemies were Baron I. von Elpons of San Francisco, Herr Jacob von Webber of Berlin, who is said to be a German agent who was at work creating sentiment against the allies and the United States in Central and South American countries, and a German plotter interned in San Francisco, whose name could not be learned.

The baron was accompanied to Salt Lake by the baroness, who will be quartered at the Wilson hotel. Owing to her husband's being interned as an alien enemy, the baroness will be the

guest of the United States government until the end of the war.

The prisoners were brought to Salt Lake under the guard of a detachment of the coast artillery, commanded by Captain Norris Stayton. They were met at the Western Pacific station by Captain A. J. McDonald of the war prison camp. No guard from Fort Douglas was present, and the coast artillery guard took them on the regular street car to the prison camp. None of the guards carried a rifle, the only weapons being side arms. There was little show of restraint over the prisoners.

Sword Is Surrendered. The first sword surrendered by a German naval officer in Pacific waters was exhibited during the time the prisoners were being transferred from the train to the street car. The sword at one time belonged to Lieutenant Bock, but was surrendered when he was taken prisoner of war by the United States officials. The sword was carefully wrapped in chemists. The lieutenant was held in San Francisco when the first of the Cormoran prisoners arrived on account of sickness.

Lord Derby, in describing the kind of woman wanted in the aeroplane factories in England, said they should have an engineering turn of mind and some education.

Everyday Working Speed

Talking about typewriter speed—it is well to remember that the mechanical construction which allows keys to be operated rapidly is only part of the story.

Any standard typewriter can be operated much faster than the speediest typist can manipulate her fingers. The question of speed, therefore, resolves itself into how quick and how accurately the average operator can turn out the different kinds of work that are required on the same machine in the course of a day or a week.

The task may include making out bills, writing cards, checks, cutting stencils, writing labels, tabulating work, or filling in ruled forms.

The L. C. Smith & Bros. typewriter is so constructed that quick changes can be made from one kind of work to another—and back again, with a minimum waste of time between.

Our booklet, "The Silent Smith," explains how all of this can be accomplished. It will be sent for the asking.

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition because of overwork, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. **GOLD MEDAL Haarlem Oil Capsules**, the National Remedy of Holland, will do the work. They are wonderful! Three of these capsules each day will put a man on his feet before he knows it, whether his trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that befall the over-sensuous American. Don't wait until it is too late. Get your doctor to give you a refund of your money if they do not help you. Accept no substitutes. Look for the name **GOLD MEDAL** on every box, three alizes. They are the pure, original, imported Haarlem Oil Capsules.—Advertisement.

BOYS GOING ON TO THE NEAR-BY FARMS

Boys are responding to the call of the Council of Defense in large and increasing numbers. They are picking cherries, berries, thinning beets, and performing other useful services with as much efficiency as the adult workers. But while so many have responded to contribute their share toward making this year a bumper crop in all the essentials of foodstuffs, there is still need for more boys. Each boy is treated fairly and his rights are secured by an special supervisor whose express business it is to look after his physical, moral welfare and general well-being. One hundred and one boys have enlisted in the agricultural army of Weber county in the last few days, and fifty boys came to the aid of Davis county farmers. It is as essential to have this farm work done, and boys between 15 and 18 can do it.

CHARACTER ACTOR TO ARRIVE SUNDAY

George Beban, the Italian character actor, will arrive in Ogden next Sunday to do some more work with the Ogden Motion Picture corporation.

There are many pictures in which Mr. Beban has appeared, but perhaps the most popular and universally beloved is the dramatized and picturized poem, "The Sign of the Rose." There is a delicate touch of sentimental pathos mixed with delicious wholesome humor, in this picture that has won its way irresistibly to the hearts of every man, woman and child that has seen it. This picture, which is a characteristic picture of the quality and character of work that Mr. Beban, in his inimitable style, has turned out, is to be followed by "The Roadside Impassari," another picture poem, written by himself and directed by Donald Crisp. In the latter drama ap-

pears Harry De Vere, who is supporting Miss Lillian Walker, leading lady of the Ogden company. Mr. De Vere will be recalled as the district attorney in Mr. Beban's "His Sweetheart." He also played the benefactor to the Italian's daughter.

When Mr. De Vere was interviewed for to his engagement with Mr. Beban, he replied:

"It was one of the most pleasant in my experience. Mr. Beban is alike wonderful as man and artist, loved equally by the public and the profession for to know him is to love him. Miss Josie Melville played a small part in the Ogden picture soon to be released, taking the part of Beban's Italian wife, and deserves mention for her creditable work."

Barney Oldfield, the veteran speed king, who has bagged the big prize in many a racing contest, now comes to the fore again, this time in the role of creator of a speed-chalet which he confidently expects to smash all records.

He has dubbed this new car of his the "Flame of Fury," and he expects it to toddle along at a mere 300 miles per hour clip.

Barney is going to spring some innovations in construction as well as speed. He expects to view the fleet landscape through a periscope. A huge twin-six motor is being built by Harry Miller, celebrated in his line. Furthermore, he plans to give his lightning-racing race its first official tryout over the new Philadelphia motor speedway, now nearing completion.

But in one particular Barney will make no change. He will keep his meteoric "Flame of Fury" free from friction by lubricating with Dixon's graphite, automobile lubricants.

A general wage increase has been secured by the National Brotherhood of Operative Pottery as a result of conferences with the United States Pottery association. Clay workers are advanced 5 per cent; women workers, 10 per cent, and slipmakers 16 2-3 per cent.

At San Juan, Porto Rico, tobacco workers employed by the Porto Rico American Tobacco company have organized a local of the Tobacco Workers' International Union, affiliated with the A. F. of L.

A British munitions worker was sentenced by a Birmingham magistrate to 12 months' imprisonment for attempting to restrict the production of munitions.

Practically every Kansas City, Mo., electrical contracting firm has signed the agreement of Electrical Workers' Union No. 124. Wages are increased from \$5.20 to \$5.50 a day.

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience always Experiment. Genuine Castoria always bears the signature of *Chas. H. Fletcher*
